1 May: Labour Day

Ai My of Year 4 – Exploring her creative side in Art class

Message from the Principal

Dear Parents and Guardians,

We would like to take a moment to share some of the exciting events and achievements that took place in our school community over February and March. Our students have taken part in many activities both inside and outside the classroom that have broadened their educational experiences.

Our students continue to strive for excellence in their studies and keep improving day-by-day. Additionally, our Year 6 to Year 11 students have all completed their challenging and educational week at Outward Bound Vietnam (OBV). This programme offers students the opportunity to build life skills such as leadership, teamwork, and persistence while developing an appreciation of nature. It is with experiences such as these that our students can grow up to be responsible and confident leaders.

We look forward to another month of success and look forward to reporting our students' results in upcoming MOET competitions.

Yours Warmly,
Mr. Ben

Year 1 STEM Class explore a hands-on experience of robotics and coding with our newest robot M-Tiny.

Year 6 Working on NEO – Mr. Peter supports his students, ensuring they get the most out of the NEO program.

Virtues Programme

Throughout February and March, our students studied the virtues of Perseverance and Honesty.

Perseverance is being steadfast and never giving up. You commit to your goals and overcome obstacles, no matter how challenging they are or how long it takes. When you persevere, you don't give up...you keep going. Perseverance teaches us that when we work hard for something and stay focused on our goals, we can achieve anything.

Honesty is being truthful and sincere in our words and actions. It is important because it builds trust with others. When people are honest, they can be relied on not to lie, cheat or steal. Being honest means that you accept yourself as you are. When you are open and trustworthy, others can believe in you.

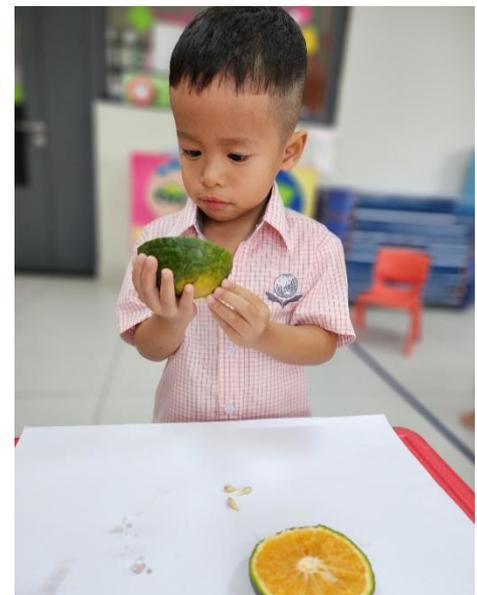

School-Wide Learner Goals

February's School-Wide Learning Goal was to nurture Confident Communicators. Confident Communicators demonstrate proficiency and skill in reading, writing, speaking and listening. They work collaboratively with others and use creative forms of expression. Having confidence is important when communicating, but it is also important in all areas of life.

March's School-Wide Learning Goal was to nurture Critical Thinkers. Critical thinking is an essential skill that allows us to analyze and evaluate information in a logical and objective way. By using critical thinking, we can make informed decisions and solve complex problems effectively. At our school, we recognize the importance of critical thinking and strive to develop this skill in our students.
