Message from the Principal

Dear Parents and Guardians,

April has been a month full of adventure for our students. It has been a month filled with sports competitions, excursions, and learning.

Our school recognizes that education is not limited to the classroom. We strive to provide our students with opportunities that promote their holistic growth. Through our sports programs and outdoor activities like Outward Bound Vietnam, our students can develop self-confidence, leadership skills, and a sense of adventure. These experiences allow our students to challenge themselves in new and exciting ways and expand their abilities beyond academics. We believe that a well-rounded education is crucial for students to become successful, responsible, and fulfilled individuals. By offering a variety of opportunities for growth, our school aims to prepare our students for a bright and promising future.

As always, I am very proud of our students for doing their best every day and for their willingness to face challenges with confidence.

Yours Warmly,

Mr. Ben

Virtues Programme

In April, our students learned about the virtues of Commitment and Confidence.

Commitment is crucial in achieving success. It allows us to stay focused and determined in reaching our goals. At our school, we encourage our students to be committed to their studies, relationships with others, and personal pursuits. By dedicating ourselves to our passions and pursuits, we develop the skills and habits needed to achieve success in the future. We aim to build a culture of commitment which inspires our students to be their best selves and to achieve great things.

Confidence means having trust in someone, while self-confidence means having faith in yourself that you can overcome any challenge. With self-confidence, you feel assured and comfortable in trying new experiences, without fear or uncertainty stopping you. When you have confidence in others, you depend on them for support. Confidence in yourself and in those around you will allow you to reach for higher goals and achieve greater success.

School-Wide Learner Goals

April's School-Wide Learning Goal was to nurture Active and Responsible Citizens who understand and respect other cultures and who take responsibility for their actions and contributes positively to society. This can include respecting the rights of others, volunteering to help others, and being an active member of our school community. A responsible citizen understands that their actions have an impact on others and on society as a whole, and always tries to make positive contributions to their community.
