5 August: Term 1 Starts

The Joy of Learning and Play at Singapore International School

Athletics is an important part of our curriculum at SIS. A healthy mind and a healthy body create the best opportunity for students to grow.

Message from the Principal

Dear Parents and Guardians,

It's been a huge honor and privilege for me to lead Singapore International School through an exciting and successful 2023-2024 school year.

As the school year ends, I want to say a big thank you to everyone in our school community. Thank you to our parents for trusting us and always supporting us. Thank you to our teachers and staff for your amazing hard work and dedication to our students.

And to our students, thank you for always trying your best and showing pride in yourselves and our school. For those leaving us this year, I wish you good health, lots of success, and happiness in everything you do. For our returning students, have a fantastic Summer Holiday and come back in August, ready for an even better year ahead!

Yours Warmly,

Mr. Ben

June 2024

Music Class teaches our students to think creatively about instruments, rhythm, melody, and culture.

Structured Play is an opportunity for students to improve their fine-motor skills and hand-eye coordination.

Virtues Programme

In June, our students learned about the virtues of Creativity and Assertiveness.

Creativity is a special power within each of us. It involves using our imagination to explore new ideas and discover our hidden talents. When we dare to see things from fresh perspectives, we open ourselves to innovative solutions for the problems we encounter. With creativity as our guide, we have the ability to bring something unique and original into the world. Embrace your creativity and let your imagination soar!

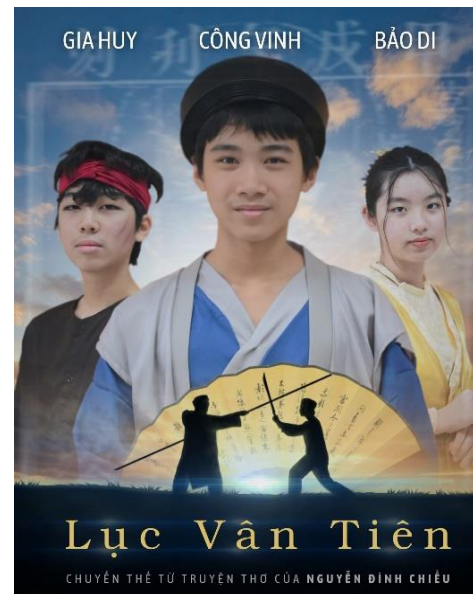

Assertiveness means being positive and confident. It's about knowing that you are valuable and have unique abilities. You trust your own thoughts and speak up for yourself. You have clear values and boundaries. You deserve respect and expect others to treat you accordingly. By being assertive, you show the world that you believe in yourself and stand up for what you believe is right.

School-Wide Learner Goals

In June, we focused on all four School-Wide Learner Goals. We aimed to nurture Critical Thinkers who use logical and advanced thinking skills. We also worked on developing Technologically Literate Students who can effectively use technology to find and organize information while using social media responsibly. Another goal was to cultivate Confident Communicators who are skilled in reading, writing, speaking, and listening, and who work well with others and think creatively. We also focused on fostering Academic Achievers who meet or exceed their year-level expectations and always strive to improve. Lastly, we aimed to create Active and Responsible Citizens who understand and respect different cultures, show good citizenship, and act responsibly in society.

Tet is a time for students and teachers to celebrate Vietnamese culture (above) and Outward Bound Vietnam teaches teamwork, confidence, and leadership. (below).

Y9 Class Poster Project illustrates the skill, creativity, and talents of our students.
